They seem almost godlike among us. They are the alien Visitors who, led by mysterious queen Anna, base their operations out of 29 mother ships hovering over 29 global sites. But why 29? The answer lies in the Vs' secret plan – just one of the extraordinary revelations in the 2-DISC, 10-EPIISODE SEASON TWO of V. As that astonishing plan draws closer to fulfillment, a resourceful underground unit of resistance fighters called the Fifth Column redoubles its efforts to undermine it. And throughout are the amazing visuals that are hallmarks of the series: looming spaceships, advanced medical technologies and the fear-inducing morphing of Vs into their reptilian forms. Our world...their rules?
